Singular or Plural?

This course is called Digital Literacy but we discuss a number of digital literacies.

What do you think? Is it just one broad term or should we separate them into several?

I'm in two minds about this - perhaps we can discuss in class?

Models of digital literacy

- If you google 'digital literacy' you will soon find that there are many definitions and models.
- You'll also find that some people call it 'digital literacies'; in the plural because the term is so wide ranging.
- We have decided to focus on one model, that of Dr Doug Belshaw, who proposes 8 elements.
